

```

SELECT
  er.evntNo,
  er.dateHeld,
  count(*) AS evntPlanCount
FROM EventRequest AS er
  INNER JOIN EventPlan AS ep ON er.evntNo = ep.evntNo
WHERE ep.workDate BETWEEN '2013-12-01' AND '2013-12-31'
GROUP BY er.evntNo
HAVING evntPlanCount > 1;

```

The screenshot shows a web browser window with the URL `rextester.com/l/mysql_online_compiler`. The SQL query is entered in the editor and has been executed successfully. The results are displayed in a table below the editor.

absolute service time: 0,35 sec

	evntNo	dateHeld	evntPlanCount
1	E106	12.12.2013 00:00:00	2

The bottom of the image shows a Windows taskbar with various application icons and a system clock indicating the time is 23:34 on 03-09-2017.
