

```
CREATE TABLE Resource(  
  resNo CHAR(8) NOT NULL,  
  resName VARCHAR(30) NOT NULL,  
  rate DECIMAL(8, 2) NOT NULL,  
  CONSTRAINT PK_Resource PRIMARY KEY (resNo)  
);
```

SQL Fiddle interface showing a MySQL 5.6 database. The table 'Resource' is created with columns: resNo (CHAR(8) NOT NULL), resName (VARCHAR(30) NOT NULL), and rate (DECIMAL(8, 2) NOT NULL). The table is populated with 6 rows of data.

resNo	resName	rate
R100	attendant	10
R101	police	15
R102	usher	10
R103	nurse	20
R104	janitor	15
R105	food service	10
